CAREER OBJECTIVE

Motivated and detail-oriented individual with a foundational knowledge in computer science, focusing on programming, software development, and model development. Interested in applying technology to solve real-world problems and committed to continuous learning and growth. Seeking an opportunity to contribute technical skills, creativity, and a strong work ethic to a dynamic and growth-oriented organization. Eager to gain practical experience, collaborate with a professional team, and take on challenges that will enhance both personal and professional development.

WORK EXPERIENCE

- Ebeng's Flower Shop** 2017 - 2018
Vendor & Flower Arranger
 - Assisted customers by providing personalized recommendations and ensuring a positive shopping experience.
 - Designed and arranged floral creations tailored to customer needs and special occasions.
 - Gained experience in pricing, inventory management, and sales strategies, improving understanding of retail operations.

PROJECT

- CHLOROPHYLL-A SOFT SENSOR** 2024
Team Research
 - Developed a machine learning-based soft sensor model for chlorophyll-a prediction, utilizing water quality parameters
 - Contributed to water quality monitoring research by providing a cost-effective and scalable solution for ecosystem management.

- DATABASE SYSTEM - INTRANET** 2025
Group Project
 - Developed an intranet-based database system for CPAF-UPLB staff and employees during OJT
 - Implemented MySQL as the backend database and used PHP for server-side development.
 - Contributed to organizational workflow by providing a secure, centralized platform for staff data access and storage
